A GREAT i undation has taken place in the e province of Batangas, Philippines, which has caused much loss of crops and cattle. There is great distress among the inhabit. ants, and confusion reigns in the public works department through damage done to many works in course of completion.

WE'are sorry to learn, says the N.-C. Daily News, that Mr Collins, a well-known Yanutze pilot, died on board the Fooksang at Wuhu at 9 p.m. on the 13th, after a short illness! We have heard that the cause of death was blood poisoning, the result of a bite by an insect.

In the village of Lile, close to Sunking, a woman, tired of hernhusband, resolved to poison him by putting arsenic in his food. The husband, occupied with business, did not return in time to partake of the moal. Towards afternoon a violent thunderstorm arose and the guilty wife was struck and killed by lighting as she was kneeling on the ground with a package in her hand containing what remained of the poison.

A BATHER unusual event occurred recently at Newchwang. CLERKS IN THE P. W. D. To the Editor of the 'CHINA MAIL' Hongkong, 21st Aug. Stir, I fail to see why the Public Works Department should be an exception to the rule as far as the appointment of clerks is

As a matter of fact when the Government wants a clerk it is the custom to get one, according to certain well known rules, through open compatitive examination: but I found that such was not the case as regards the Surveyor General's Department. Some little time ago when the second clerkship of that department was vacant I was waiting patiently for an examination, so as to compete with the other candidates for the post, but I was justly disappointed by being informed that the posts from the second clerk downwards were to be filled up by promotions, which is certainly very just and fair, for old officers who have done good service deserve all consideration, provided they possess the required qualifications. But I was really surprised when I learned that only the second elerkship was so filled by promotion and an outsider found his way to the chair vacated by the third clerk without passing the necessary examination; such a course is decidedly a contempt of the law.

As he was already appointed I thought it somewhat unfair to say anything against his appointment, but now that he has recigned his appointment, if the vacancy thus caused be not filled by promotion, sincerely trust that the Government will do me and fellow scholars justice by
